OFFICE COPY

1985 CROP REPORT

The cover . . .

. . . depicts field harvesting of the multi-million dollar cauliflower industry in Santa Barbara County.

Originating in the orient, it is a close relative of cabbage and broccoli.

The Italians have been using cauliflower in their cuisine since the 1400's. It made its appearance in the United States sometime in the 1600's.

Harvested year-round in Santa Barbara County, it remains a mainstay of the area's agriculture bringing in gross receipts of over 22.5 million dollars in 1985.

The Artwork for the 1985 crop report cover was drawn by Nat D. Fast of Santa Maria.

Clare Berryhill, Director
California Department of Food and Agriculture

and

The Honorable Board of Supervisors of Santa Barbara County

Toru Miyoshi, Chairman, 5th District
David Yager, 1st District
Michael Stoker, 2nd District
William Wallace, 3rd District
DeWayne Holmdahl, 4th District

Gentlemen:

Agriculture continues to be Santa Barbara County's major industry with a gross production value of \$341,811,369 for 1985. This 6% increase in gross value over 1984 does not reflect net income to the agricultural producers.

Overall agriculture is experiencing a very depressed economy but Santa Barbara County, because of its agricultural diversity, has not yet been as adversely affected. Many individuals in our agricultural industry suffered serious losses while a few commodities (primarily fruit crops) did well enough to account for the overall increase in total values. However production costs continue to increase and these costs in some cases exceeded the value of the crop. The values in this report are gross values and in no way reflect net income.

The diversity of Santa Barbara County's agriculture which provides stability against the many adverse factors (weather, pests, market fluctuations, etc.) which agriculture must face is represented by the 34 different commodities which exceed a million dollars in value.

I wish to express my appreciation for the cooperation of all the growers, organizations and individuals who provided the information necessary for this report and a special thanks to members of my staff who assisted in compiling it.

Sincerely,

Ronald M. Gilman
Agricultural Commissioner
