**Presenter:**

Steven Vantine,  
Educational Consultant  
CDPH Immunization Branch

### **Overview**

The purpose of this lecture is for frontline service providers to review significant changes and challenges in immunizations for 2017. Discussion will include:

- Review of newly licensed vaccines and vaccines in the pipeline.
- Review of the 2017 Adult Immunization Schedule(s).
- Q&A Session

### **Objectives**

- Identify recent changes to the immunization schedules for adults in the United States.
- Describe specific vaccine recommendations that have been changed or adjusted.
- Discuss new vaccines licensed in 2017
- Briefly review current vaccine issues including shortages, anticipated vaccines, and best practices aimed at increasing immunization rates in adults.

### **Target Audience:**

- Medical Doctors/Doctors of Osteopathy
- Physician Assistants
- Nurse Practitioners
