

# PREPARING FOR RECREATIONAL CANNABIS:

An Educational Workshop for Professionals in Health, Mental Health, Substance Use Disorders, and Youth/Children's Services

- Lessons from Colorado where recreational cannabis has been legal since 2014
- Cannabis use on neurocognitive function in the developing brain
- Local panel discussing potential impacts on our communities

## Hear two nationally recognized presenters:

Dr. Larry Wolk is executive director and chief medical officer of the Colorado Department of Public Health and Environment. His new frontier is addressing the issues surrounding medical and retail cannabis.

J. Cobb Scott holds a Ph.D. in Clinical Psychology with specialization in Neuropsychology and his research and interests includes understanding relationships between cannabis use, cognitive functioning, and mental health.
